UMHLABUYALIGANA MUNICIPALITY: IDP, BUDGET AND PMS PROCESS PLAN

SECTION 1:

(a) INTRODUCTION

Integrated Development Planning Process:

The Integrated Development Planning process is a continuous cycle of planning, implementation, formulation and review. All municipalities are expected to formulate their Integrated Development Plans (IDP) for every five years and these IDPs are then reviewed annually (financial year).

In November 2021 elections, the municipality was engaged in a new 5-year IDP cycle. After these elections a new IDP was developed, and it will come to an end in year 2026/2027. IDP implementation programme is monitored to identify if the organizational objectives, Key Performance Indicators and Targets are being achieved. Monitoring also involves gathering of information on changing circumstances in different situations such as:

- Baseline data and demographics,
- New policy legislation,
- Corporate development,
- Sector departments,
- New investments opportunities,
- Sector development plans,
- Changes in the existing situation due to unexpected events such as natural disasters,
- Input from stakeholder organizations and constituencies,
- Budget information in compliance with mSCOA from other spheres of government as well as municipal budget review process,
- More or improved in-depth information about new developments and trends.

The Municipal Systems Act requires that each municipality, before the drafting of the IDP, prepare a process plan indicating:

- Roles and Responsibilities and responsible persons
- A description of the organizational arrangements to be established including the terms of reference,

UMHLABUYALIGANA MUNICIPALITY: IDP, BUDGET AND PMS PROCESS PLAN

- An action programme with activities and horizontal alignment, binding legislation and planning requirements and the cost estimates for the whole review process,
- Mechanisms and procedures for public participation.

(b) LEGISLATIVE REQUIREMENTS FOR IDP REVIEW

The preparation of an IDP Process Plan is referred to in Chapter 5, Section 28 of the Municipal Systems Act, 32 of 2000 as follows:

- (1) *Each municipal council, within a prescribed period after the start of its elected term, must adopt a process set out in writing to guide the planning, drafting and adoption and review of its integrated development plan.*
- (2) *The municipality must through appropriate mechanisms, processes and procedures established in terms of Chapter 4, consult the local community before adopting the process*
- (3) *A municipality must give notice to the local community of particulars of the process.*

In order to ensure certain minimum quality standards of the IDP process, and a proper coordination between and within spheres of government, the preparation of the Process Plan has been regulated in the MSA. The preparation of a Process Plan, which is in essence the IDP Review Process set in writing, requires adoption by Council. This plan must include the following:

- A programme specifying the time frames for the different planning steps.
- Appropriate mechanisms, processes and procedures for consultation and participation of local communities, organs of state, traditional authorities, and other role players in the IDP drafting process.
- An indication of the organisational arrangements for the IDP process.
- Binding plans and planning requirements, i.e. policy and legislation; and Mechanisms and procedures for vertical and horizontal alignment.

UMHLABUYALIGANA MUNICIPALITY: IDP, BUDGET AND PMS PROCESS PLAN

on Standard Chart of Accounts (mSCOA) into effect on 22 April 2014. Municipal SCOA provides a uniform and standardised financial transaction classification framework. Essentially this means that mSCOA prescribes the method (the how) and format (the look) that municipalities and their entities should use to record and classify all expenditure (capital and operating), revenue, assets and liabilities, policy outcomes and legislative reporting. This is done at transactional level and ensures that a municipality and its entities have minimum business processes in place. This will result in an improved understanding of the role of local government in the broader national policy framework and linkage to other government functions.

The Regulations apply to all municipalities and municipal entities and indicate its applicability and relevance to each specific municipal environment while accommodating organisational uniqueness and structural differences. The Regulation provided for a three year preparation and readiness window and all 257 municipalities must be compliant to the mSCOA classification framework which was set for 1 July 2017.

Chapter 6 of the MFMA tasks the Municipal Manager of the municipality with managing the financial administration of the municipality. Since mSCOA is a municipal business reform, the Municipal Manager has the overall responsibility to manage the successful implementation of the mSCOA project within the municipality, to ensure the municipality is able to capture all transactions (at posting level) in accordance with mSCOA within its respective financial applications (systems) by 1 July 2017 going forward.

Currently, there are 16 circulars issued by the National Treasury to guide municipalities in implementing Mscoa and to ensure that all municipalities are fully compliant with Mscoa regulations.
